Please find below a request under the Freedom of Information Act. This information would normally be provided by your trust’s patient equality lead/manager, possibly in conjunction with the leads for your patient

administration/appointment-booking systems.

Questions:

1 – At the point of registration/referral, in line with the Accessible Information Standard, does your trust currently:

- A - ask all patients whether they have any information or communication support needs, and find out how to meet those needs?
- B – routinely highlight or 'flag' in the person's file or notes that they have information or communication needs which must be met?
- C – routinely share this information with other providers of NHS and adult social care, when patients have given consent/permission to do so?

2 – Barriers to compliance:

- A - If you have answered 'no' to 1A, what is the main reason why this is not currently done?
- B - If you have answered 'no' to 1B, what is the main reason why this is not currently done?
- C - If you have answered 'no' to 1C, what is the main reason why this is not currently done?

3 – If you have answered yes to 1B, what is the process by which patients' needs are recorded and subsequently acted on? (eg via pop-up alerts within patient administration system, use of colour-coded stickers within paper records)

4 – In the last three full financial years (2020/21, 2019/20 and 2018/19), have you undertaken any audits to assess your compliance against the Accessible Information Standard or the provision of accessible information generally? If yes, please share any resulting reports/findings.

5 – In the last three full financial years (2020/21, 2019/20 and 2018/19), how many complaints has your trust received which primarily related to patients not receiving information in accessible formats? If it is not possible to provide these figures in full without incurring the Act's Section 12 time/cost limit, please provide any figures you are able to within the limit (eg figures for one year, any snapshot reports/audits)

6 – Please provide figures for your trust's spending on interpreting and translation into non-English languages (if possible, excluding British Sign Language (BSL) interpreting and translation of materials into easy read) for the last three full financial years (2020/21, 2019/20 and 2018/19) together, if possible, with the number of requests for interpreting/translation that this represents.

If it is not possible to provide the details requested without incurring the Act's Section 12 time/cost limit, please the information you are able to provide within the limit.

I am currently embarking on a research project around Cyber Security and was hoping you could provide me with some contract information relating to following information:

1. Standard Firewall (Network) - Firewall service protects your corporate Network from unauthorised access and other Internet security threats
2. Anti-virus Software Application - Anti-virus software is a program or set of programs that are designed to prevent, search for, detect, and remove software viruses, and other malicious software like worms, trojans, adware, and more.
3. Microsoft Enterprise Agreement - is a volume licensing package offered by Microsoft.

The information I require is around the procurement side and we do not require any specifics (serial numbers, models, location) that could bring threat/harm to the organisation. For each of the different types of cyber security services can you please provide me with:

1. Who is the existing supplier for this contract?
2. What does the organisation annually spend for each of the contracts?
3. What is the description of the services provided for each contract?
4. Primary Brand (ONLY APPLIES TO CONTRACT 1&2)
5. What is the expiry date of each contract?
6. What is the start date of each contract?
7. What is the contract duration of the contract?
8. The responsible contract officer for each of the contracts above? Full name, job title, contact number and direct email address.
9. Number of Licenses (ONLY APPLIES TO CONTRACT 3)

*A Business Intelligence tool is a type of application designed to retrieve, analyse, transform, and report data for business intelligence normally in the form of interactive dashboards

A Benchmarking tool is used to compare the performance of the business processes and products with the best performances of other companies inside and outside the industry.

*A data warehouse is a type of data management system/central repository of information that is designed to enable and support BI activities, especially analytics.

34484	FOI Request	COVID-19 Guidance (L697)	<p>I would like to know what guidance was put in place for patient treatment pathways during covid, since 1st March 2020, and what has changed since the start of covid for patients - eg, are they offered the same gold standard treatment as before? Please see attached.</p> <p>For Radiotherapy, how long was the average delay at the start of covid? The average delay for radiotherapy treatment at the start of covid was 3 months. This delay was only recorded for 17 patients. All of the patients who were delayed were given hormone treatment if appropriate. Delays were only considered in patients who could have holding treatments – which are invariably hormone based and if a delayed patient became unsuitable for hormones they were brought in for treatment (there is no record of this happening).</p>	02 Sep 2021	12 Oct 2021
