

You can become a member of The Christie NHS Foundation Trust. Membership is free and it gives you the opportunity to receive regular newsletters about The Christie and our future plans, attend open days, seminars and other special events, participate in surveys of members' views and opinions or become a Governor. As a member it will be up to you how much you want to get involved.

If you would like further details on becoming a Christie NHS Foundation Trust member, please tick this box and give your name on the space inside this leaflet.

When you have completed your form you can either:

- Put it in one of the suggestion boxes in the hospital. These are located in Oak Road reception, outpatients department, at the bottom of the stairs near the medical assessment unit or the cancer information centre.
- Post it using our FREEPOST address - no stamp is needed: Governance Team, The Christie NHS Foundation Trust FREEPOST (MR9871), Manchester M20 7HH.
- You can email your comments to pals@christie.nhs.uk

Concerns, suggestions, compliments

Comment form

At The Christie, we are keen to improve the quality of the service we give to our patients.

You can help us to do this in two ways.

- **By letting us know what needs improving**

This could be related to the facilities at The Christie, the way things are organised, or the staff.

- **By telling us what you like about The Christie**

We need to know what is important to patients - so please let us know.

Please use the page inside to write down any suggestions or compliments.

All comments you make are recorded and investigated.

If you would like a personal reply to your suggestions or concerns, please write your name and address or telephone number below:

.....
.....
.....

1. Is there anything in particular that you have appreciated about The Christie?

2. Is there anything that you have not been too happy about during your visit, or anything that needs improving?

(The more detail you provide, the easier it is for us to follow it up, or feed back to the right staff. Details could include dates, names or relevant wards, departments, team of doctors or radiotherapy machine.)
