Oak Road Resurfacing Plan
Footpath Works

- This work is to replace the existing tarmac path
- From the start of the works, Oak Road will return to two-way
- All driveways and roads leading off Oak Road will have continued access during this time
- If any access needs to be temporarily lost, the affected neighbor will be informed of this
- Parking bays will be lost as the works progress down each side

Oak Road Resurfacing Works

• Once the footpath works are complete, Oak Road will be resurfaced.
• This will take 2 weeks to complete. The work will start from Palatine Road and move up to Wilmslow Road, and will be carried out in 2 halves.
• Works will take 2 weeks to complete and the construction direction will be from Pallatine Road to Wilmslow Road, and will be carried out in 2 halves.
• The initial work will take place from 6pm – 11pm to minimise disruption.
• During the initial work, Oak Road will be closed in sections and diversions put in place.
• Before the road is closed, communication will be distributed on the times and length of the closure.
• Oak Road will then be re-opened and the irons will be lifted to the new level.
• Oak Road will then be resurfaced during a weekend period to minimise disruption.

Oak Road will be fully resurfaced from Palatine Road to Wilmslow Road.
Oak Road Resurfacing Works

- Works consist of the removal of the top layer of tarmac, raising the existing irons and then resurfacing.
- During the planning period, the road will be closed on evenings between 6pm and 11pm.
- Existing irons will be lifted during the day but the road will remain open.
- Resurfacing of the road will take place over a weekend to avoid disruption.
- Parking bays will be lost as the works progress down each half of Oak Road.

Oak Road will be closed in sections and diversions put in place.
Week 10

Oak Road Resurfacing Works

- Works consist of the removal of the top layer of tarmac, raising the existing irons and then resurfacing.
- During the planning period, the road will be closed on evenings between 6pm and 11pm.
- Existing irons will be lifted during the day but the road will remain open.
- Resurfacing of the road will take place over a weekend to avoid disruption.
- Parking bays will be lost as the works progress down each half of Oak Road.

Oak Road Resurfacing Works
Oak Road Resurfacing Works Complete

Oak Road reopens on completion of the resurfacing & white lining & returns to two way traffic
