Greater Manchester Cancer Conference

Monday 26th November 2018
The Point Conference Centre, Emirates Old Trafford, Talbot Rd, Stretford, Manchester M16 0PX

Overview
This one day conference is aimed at GM professionals and GM service users and will include plenary, parallel and poster sessions. The conference will be a first for any cancer alliance and will underline the benefits of cancer services, research and education working together. It will focus around Greater Manchester patient outcomes/ experience and explore key improvements made and continuing challenges.

Topics covered
- GM user involvement, sharing learning and best practice
- Sharing examples of where GM is leading the way nationally and encourage pride in achievements so far
- Enabling focus on strategic challenges
- Highlighting the uniqueness and impact of GM devolution
- Encouraging collaboration and input for further improvement
- Generating research, surveys and feedback for cancer strategy initiatives from key attendees
