Barbara Corke, Advanced Nurse Practitioner
0161 918 2151

Kerry Chidlow, Advanced Nurse Practitioner
0161 446 3000 (please ask for ext 4167)

Diane Morrissey, Breast Care Nurse
0161 446 8001

If there is no answer, please leave a message and we will call you back, although this may not always be the same day.

If you need information in a different format, such as easy read, large print, BSL, braille, email, SMS text or other communication support, please tell your ward or clinic nurse.

We try to ensure that all our information given to patients is accurate, balanced and based on the most up-to-date scientific evidence. If you would like to have details about the sources used please contact patient.information@christie.nhs.uk

For information and advice visit the cancer information centres at Withington, Oldham or Salford. Opening times can vary, please check before making a special journey.
The adjuvant Herceptin service
The adjuvant Herceptin service (Trastuzumab) is a nurse led service with specialised knowledge and skills in the care and support of patients receiving adjuvant Herceptin.

The adjuvant Herceptin service will co-ordinate your treatments and request appropriate echocardiograms/MUGA (heart scans). During your Herceptin treatments, you will have scheduled reviews by telephone or at clinic. We work closely with other members of the multi-disciplinary team including your surgical, radiotherapy, oncology and breast care nurse teams.

We are able to provide specialised support including information about treatment and your treatment pathway, advice and management of side-effects of Herceptin, chemotherapy, radiotherapy and hormone therapy and referral to other specialist services, such as complementary therapy, counselling etc.

Treatment location options
Herceptin treatment is administered in a location of your choice. However on occasion there may be a wait for your preferred option.

Christie at home
A specialist team that provides treatment within your home. Monday to Friday - the treatment day will depend on the area in which you live.
