

Oncology of Later Life Study Day

Friday 19th July 2019

Education Centre (Dept 17), The Christie, Manchester, M20 4BX

Overview

This multidisciplinary study day will raise awareness of geriatric oncology conditions, increase confidence in assessing older patients and identify a way of building resilience within this patient population

Topics Covered

- How co-morbidities, frailty and geriatric syndromes impact cancer treatment options
- Screening
- Multi-disciplinary approach
- Delirium
- Patient centred research
- Ageing demographic of patients
- Prehabilitation
- Nutrition
- National Drivers

Intended Audience

Medical, clinical and surgical oncologists, geriatricians, specialist nurses, GPs, allied health professionals, community hospital teams and junior doctors (foundation, core and specialist trainees).
