

Patient Case Forum - Melanoma

Tuesday 1 December 2020 - via livestream

Overview

Join us virtually for this scientific, non promotional medical education meeting with aim of the meeting to create a forum whereby regional melanoma communities in the northwest can share their experience of treating adjuvant and metastatic melanoma patients with the wide range of therapies available to them.

Intended Audience

Suitable for HCPs in the North West region of England with an active interest within Melanoma this can include the following: Consultants, Registrars, Nurses and Pharmacists

What to expect

Individual clinical experience in managing melanoma patients, their comorbidities and treatment related AEs will be discussed in a series of patient case study presentations.

Regional experts within Melanoma will chair the meeting and select case studies which will be presented as well as facilitate discussion after each case study has been presented. A post ESMO congress update will also be provided in order to update HCPs on recent advances and the latest research within Melanoma.
