33759	FOI Request	Structured Judgement reviews (L513)	<p>Please can you tell me how many Structured Judgment Reviews (SJRs) the trust has carried out since 1st January 2020 and how many of these reviews involved the death of a patient with hospital acquired covid.</p> <p>Description Value Total number of SJRs carried out 143 Number of SJRs of deaths related to COVID 29 Number of SJRs of deaths related to COVID where test was positive 8 - 14 days after admission - Number of SJRs of deaths related to COVID where test was positive > 14 days after admission <5</p> <p>What was the outcome of the SJRs (or SIs, if the SJR system is not used). For each SJR please give a brief summary of outcome e.g. any particular processes that were changed, any conclusion as to what went wrong). just the hospital acquired cases (probable and definite)</p> <p>At the Christie, the SJR mortality review is a retrospective review of the medical and nursing casenotes conducted by a pair of reviewers (senior doctor and senior nurse) for all COVID-related deaths. Probable and definite hospital acquired cases are also reviewed through the Trust infection prevention and control governance processes.</p> <p>For all 3 cases testing positive 15 days or more after admission, no lapses in care were identified on SJR. Two of these patients were admitted to the hospital before the pandemic was declared, and contracted the infection prior to the visitor restrictions for in-patients and before masks were mandated for visitors and staff not working on the cohorts wards. It has therefore not been possible to conclude whether transmission was via hospital staff or ward visitors, but the infection prevention and control review for both cases found that appropriate procedures in place at the time were followed and identified no concerns. The infection prevention and control review for the third case is currently ongoing.</p> <p>If the trust does not use the SJR method, please can you give me the numbers for the equivalent method you use e.g. a Serious Incident. - What steps has MCC required the developer to take to exhibit the delivery of its strategy that underpinned the case for building PA 117847 in the first place? This case was based on the assertion that the extension to the staff car park would [with support from an extension to the Controlled Parking Zone, removal of staff cars from on-road parking in the vicinity of the hospital location] restore residential amenity to a part of the area; PA 117847 was first approved by MCC in January 2018?
- What evidence is there that the developer is applying its so-called Green Travel Plan [GTP] to produce meaningful 'green' results in a city that has recognised it has a 'climate emergency', evidence such as reducing staff car traffic to the Withington location [not just by a reduction in single-user staff car traffic], significantly increasing use of the excellent public transport links and its ability to properly apply the constraints of the GTP to the increasing number of non-Christie and even non-NHS employees who populate the Withington location?

- How was the developer able to misrepresent [to the as-was twelve local MCC Councillors] a view [unsupported by the developer's own findings] that local support [from the 'Christie Support Campaign' or similar] for the proposed development [that soon became PA 123748] was high - with the majority of that local support said to have been 'from postcodes in close proximity to the site'?

33758	FOI Request	Medical Agency Cascade (L512)	<p>1) Which locum/staffing agencies have you engaged to be part of your medical (doctors) agency cascade? Please provide the names of the agencies split into the relevant tiers. If you do not use a tier system, please explain how vacancies are cascaded with agencies. The Christie NHS Foundation Trust does not operate with a tiered system- we use the CCS framework. Once a locum requirement is identified, we use the TempRE system to liaise with all agencies on the CCS framework simultaneously with the locum requirements.</p> <p>2) Please provide a breakdown of the proportion of medical (doctor) locum hours booked through each of these tiers for the last three years. If this is not available, please provide a breakdown of the proportion of medical (doctor) locum spend incurred through each of these tiers for the last three years. If only recent years are available, please provide what you have. N/A (see Q1); The Christie NHS Foundation Trust does use a Tier system (Under Section 1(1)(a) of the FOIA The Christie NHS Foundation Trust denies that this data is held)</p> <p>3) What is the protocol for releasing medical (doctor) vacancies to each of your tiers? N/A (see Q1); The Christie NHS Foundation Trust does use a Tier system (Under Section 1(1)(a) of the FOIA The Christie NHS Foundation Trust denies that this data is held)</p> <p>4) When are the current arrangements relating to your agency cascade in place until? Within the Christie NHS Foundation Trust this is reviewed annually.</p>	22 Mar 2021	14 Apr 2021

I am interested in obtaining the latest Drug Patient Level Contract Monitoring (DrPLCM) report for The Christie NHS Foundation Trust under Freedom of Information and kindly request your help.

These are the records sent monthly from every provider to NHS Improvement in a .csv format. Here is a link to the NHS specification. I would be grateful if you could send existing file(s) and nullify records that include personal data of patients, before responding. Please see the appendix below for the list of fields requested.

Please include:

- The total dataset sent to NHS Improvement for all commissioners, rather than a single CCG
- All hospitals in your NHS Trust
- All inpatient, outpatient, A&E and other clinic records
- Jan 2019 to Dec 2020
- In .csv format

-------	-------------	------------------------------------	---	-------------	-------------

Since January 30 2020 to today's date, have you commissioned or received a Royal College invited review? Please give details of date commissioned/received, the royal college involved and the service under review.

Where you have received a report, please attach it along with any action plan you have developed.

We would draw your attention to the framework drawn up by the Academy of Medical Royal Colleges under which invited reviews are carried out.

Page 21 of this stresses the need for openness and transparency when an invited review is in response to concerns about the quality of patient care.

Please detail how you have complied with this eg by pointing us to the required summary in your board papers or on your website.
