

Therapeutic Approaches in EOL Cancer Care

Online Sessions

Overview

This 2 day course explores issues related to providing complementary therapies for those approaching the end of life as well as in the last few days of life; whether being cared for in a hospital, hospice or home setting.

The focus will be on addressing complex symptoms such as breathlessness, consent issues, involvement of carers, consideration of spiritual issues, challenging conversations and end of life care.

Please note this is not a 'hands-on' course.
