major changes on Earth. We will visit several places of strategic interest and will discuss possible collaborations internationally.

Among other things will also discuss new measures on global security. Last time this meeting was productive and has major changes and will

Evaluation, Evidence & Research for Complementary Therapists & Coordinators

Overview

You will be introduced to the various research methodologies, gain an understanding of the terminology used, and learn the difference between audit and research. In addition, you will learn how to critique evidence, explore and appreciate ethical issues. Examples of undertaking research in the real world, drawn from the speakers own experience will be used to highlight many of the key issues and avoidable pitfalls. The workshop will help you to appreciate quality evidence, identify areas for further research and demystify the processes involved.

Date: 29th September 2022, 9:30 - 16:30
