Living with cancer

## The wig fitting service at The Christie

If you experience hair loss as a result of your cancer treatment you may wish to consider getting a wig.

If you are an NHS patient and your treatment causes you hair loss, you are entitled to a Christie wig voucher which enables you to choose a free wig from a specific range. If you wish to choose a wig from an alternative range, you can use your Christie wig voucher and pay the extra amount on top to cover the cost.

You can obtain your voucher for a wig from the cancer information centre at The Christie at Withington. The information centres at The Christie at Oldham, Salford and Macclesfield also provide wig authorisations. You will need your hospital number, and your name and address.

Once you have obtained your wig voucher, you can visit the wig specialist in the wig room at The Christie in Withington or one of the listed salons. Please remember to bring your wig voucher with you as the specialist cannot see you without it.

If these locations or opening hours are not suitable for you, or if you are unable to attend due to your health, then please speak to the cancer information centre.

Please contact your cancer information service for more advice and support regarding hairloss:

## What happens during a wig fitting?

Your wig fitting will be carried out by an experienced wig fitter. You will be welcomed to the service where the wig fitter will chat to you about the style and colour of the wig you would like. You will then be able to try on some wigs to help you choose one you are happy with.

If the wig you have chosen is in stock, you will be able to take it away with you. We may sometimes need to order your style for you, but we will aim to get it to you as soon as possible.

The wig fitter will also give you advice about how to care for your wig.

You can bring someone with you to your appointment, but please be aware the salons can be small and may only be able to fit in one additional person.
