04/01/2013 UpToDate is now integrated with the clinical web portal

UpToDate® is now integrated with the clinical web portal.\*

Click **HELP** on the light blue system navigation bar above to access UpToDate contents, calculators, help and demos.

UpToDate® is an evidence-based, physician-authored clinical decision support resource which clinicians trust to make the right point-of-care decisions. More than 5,100 world-renowned physician authors, editors and peer reviewers use a rigorous editorial process to synthesize the most recent medical information into trusted, evidence-based recommendations that are proven to improve patient care and quality. More than 500,000 clinicians in 149 countries and almost 90% of academic medical centers in the United States rely on UpToDate to provide the best care.

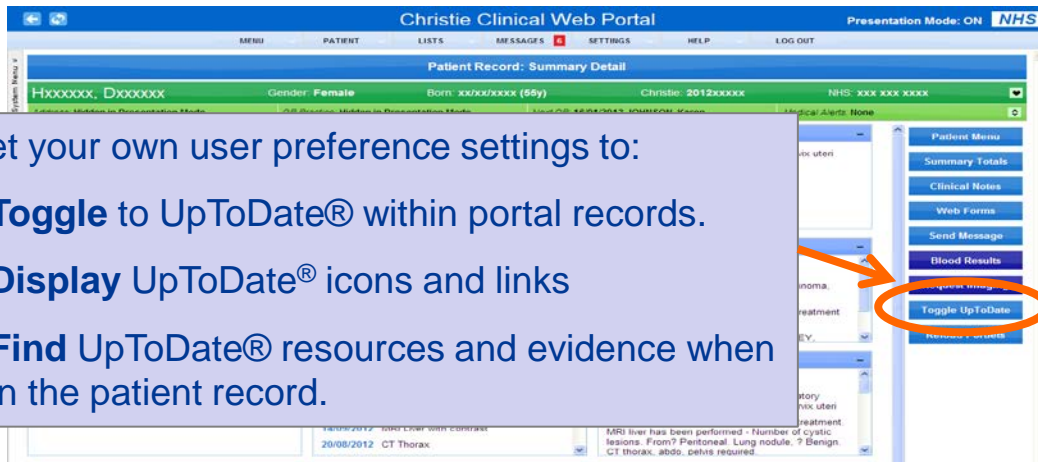

\*Please note users accessing from peripheral clinics will need to enter their Athens login to view the premium content.

MRI liver has been performed - Number of cystic lesions. From? Peritoneal Lung nodule. ? Benign. CT thorax, abdo, pelvis required.

Set your own user preference settings to:

- **Toggle** to UpToDate® within portal records.
- **Display** UpToDate® icons and links
- **Find** UpToDate® resources and evidence when in the patient record.

## Display UpToDate® links in the portal

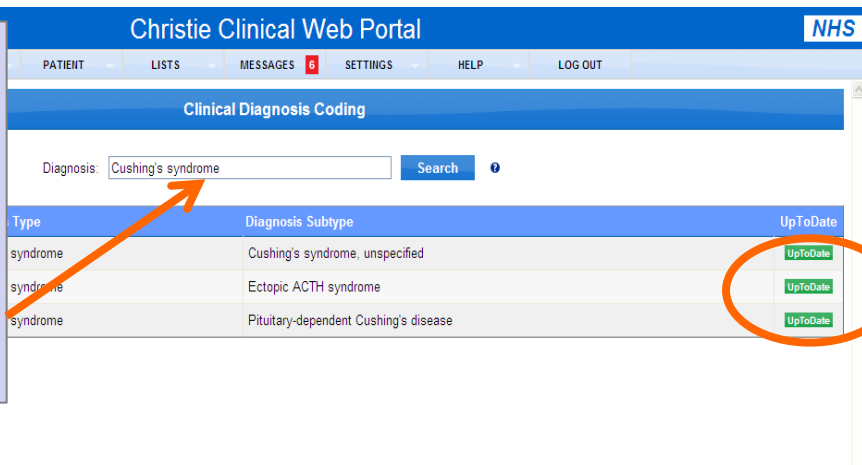

The screenshot shows the Christie Clinical Web Portal interface. At the top, there is a navigation bar with 'MENU', 'PATIENT', 'LISTS', 'MESSAGES', 'SETTINGS', 'HELP', and 'LOG OUT'. Below this is a 'Patient Record: Summary Detail' section. The patient information includes 'Hxxxxxx, Dxxxxxx', 'Gender: Female', 'Born: xxx/xx/xxxx (85y)', 'Christie: 2012xxxxx', and 'NHS: xxx xxx xxxxx'. The 'Diagnoses' section is expanded, showing a list of conditions. The first entry is '2 Malignant neoplasm of cervix uteri', which has a green 'UpToDate' link next to it. An orange arrow points from the text in the callout box to this link. The 'Patient Menu' on the right side of the screen includes options like 'Summary Totals', 'Clinical Notes', 'Web Forms', 'Send Message', 'Blood Results', 'Request Imaging', 'Toggle UpToDate', and 'Reload Portlets'. The 'Toggle UpToDate' option is circled in orange.

- Display **context sensitive** UpToDate® clinical decision **support links** within the clinical record.
- The UpToDate® buttons provide context sensitive links to clinical diagnoses, medications and chemotherapy treatment regimens

## Search by Diagnosis

- **Search** the Christie Clinical Web Portal for patients by diagnosis.
- A single click performs an UpToDate® search on the condition.
